## Professional experience

**2018 – Current**

---

**Experis AB**

Consultant at DXC Technology (Previously CSC Sverige AB) where I work mainly with client (computer) management for a large on-premises Windows based IT environment.

---

**2016 – 2018**

---

**Experis AB**

Consultant at DXC Technology (Previously CSC Sverige AB) where I worked as a second line support technician for two large IT environments. One on premises (self hosted) and one a mix of on-prem and SaaS (cloud)

---

**2011 – 2015**

---

**PTJwebben**

Had my own company where I developed websites

---

## Education

**Linköping University, Linköping, 2011 – 2014**

Studied mixed system science courses

**Realgymnasiet, Linköping, 2008 – 2011**

Studied engineering with a focus on programming

## Other merits

### Language

My native language is **Swedish**

I talk, write and understand **English** fluently.

### IT / Computers

Administration of Windows Enterprise environments.

Mainly administration of **Windows 7, 8 and 10** clients using things like **System Center Configuration Manager (SCCM)** but I also have experience with **Group Policies, Active Directory, Exchange** and other such systems that are common in Windows based environments.

Development of graphical tools, command line tools, scripts and modules using Windows **Powershell, C#, Java or PHP** but usually I have no problems picking up other script/programming languages as well.

Troubleshooting over remote connection

**CV**

**Other**

I have a driver's license and a car
